### **Lancaster Play & Learn Receives \$7,500 Plum Creek Foundation Grant**

**BINGHAM, Maine** – The Plum Creek Foundation recently awarded a \$7,500 grant to Lancaster Play & Learn to help renovate and expand its current childcare facility.

Lancaster Play & Learn is currently undergoing renovations updating its facilities to increase space and address various building code specifications. The expansion calls for many new additions, including raised ceilings, new infant and toddler rooms and sprinkler system installation. The development will help eliminate the waiting list for childcare at the center, which provides service to many low- to moderate-income families.

“We are grateful to the Plum Creek Foundation for supporting us with this grant that will help develop our facility,” said Amy Graham, director of Lancaster Play & Learn. “The grant will help us further our mission of providing a safe, healthy and educational environment for children in our community.”

The mission of the Plum Creek Foundation is to provide philanthropic contributions to support and improve the general welfare of life in the communities that Plum Creek serves. The Foundation board meets quarterly to review applications submitted from organizations in the company’s operating communities. Visit the Community Involvement page on Plum Creek’s Web site at [www.plumcreek.com](http://www.plumcreek.com) to download an application.

###

Plum Creek is the largest and most geographically diverse private landowner in the nation, with 8.2 million acres of timberlands in major timber producing regions of the United States and 10 wood products manufacturing facilities in the Northwest.
